Re: Unauthorized news group posting

Dear Google Legal Counsel:

It has been brought to our attention that a news posting with the Message ID [REDACTED] was made to the newsgroup comp.os.vxworks on March 5, 2003 by a person stating his email address as [REDACTED]. The URL for this posting is <http://groups.google.com/groups?dg=&hl=en&lr=&ie=UTF-8&group=comp.os.vxworks&selm=3E6640F7.D1593455%40ath.forthnet.gr>. This posting includes confidential and proprietary information of Wind River Systems, Inc. ("Wind River"), in the form of a key code (25 characters following "SN#:" in the posting) useful to circumvent a technological measure that controls access to computer software -- Tornado(R) 2.2/VxWorks(R) 5.5 -- the copyrights for which are owned by Wind River. Wind River has a good faith belief that this posting was not authorized by Wind River, and may allow for the unlicensed (and therefore illegal) use of Wind River software, as well as the violation of contractual confidentiality requirements.

We must request that Google immediately remove this news posting from its servers and take appropriate measures to prevent its further dissemination.

Should you require further information concerning this matter, please contact me. My contact information is above.

I swear, under penalty of perjury, that the information in the notification is accurate and that, for each item identified above, I either own the copyright or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

Very truly yours,

[REDACTED]
