Subject :Infringement Notification - www.desiatimi-prstami.sk

We would like to ask to remove the following domain **[desiatimi-prstami.sk](http://www.desiatimi-prstami.sk)** from your index. It is web site of the former reseller of our software in Slovakia. We do not cooperate with them any more and they are still selling illegally our software Typing Fingers (Desiatimi Prstami in their language) in Slovakia through web site - www.desiatimi-prstami.sk

Our company has already taken complaint in a law suit against the company NetDesign, which owns the web site. Unfortunately such a legal procedure takes more than a year in Eastern Europe.

Evidence:

Download the program Typing Fingers
<http://www.typing-tutorial.com/download.htm> (English version)
<http://www.desiatimi-prstami.sk/desiatimi-prstami/default.asp?id=10> (Slovak version – sold illegally)
and see the section about the owner of the company.

In case you would need some more legal evidence, please contact me or my partner

Thank you for your help.

I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.
