

I am writing regarding my copyrighted images that are appearing on "google images".

I swear, under penalty of perjury, that the information in the notification is accurate and that, for each image identified above, I either own the copyright or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

I do not have access to the servers upon which my images are being picked-up by google. I have attempted contact with the sites in question. The International Museum of the Horse, at the Kentucky Horse Park has tried to insert what is necessary to remove my images, but without success. I do not know why. But I do want my copyrighted images removed from Google Images ASAP.

A list of the images I have found, and that still remain, follows.

Thank you,
