Digital Millennium Copyright Act - Infringement Notification

1. Identify in sufficient detail the copyrighted work that you believe has been infringed.

The copyrighted work is the text that appears on www.self-storage-facilities.com detailed in **APPENDIX A** attached.

2. Identify the material that you claim is infringing the copyrighted work listed in item #1 above.

The infringing work is the text that appears on the following page(s) for the following search(s) detailed in **APPENDIX B** attached.

Search Query: "Whether you're looking to store just a few items"

Infringing Web Pages: www.usamovers.net/movers_storage.html

3. Provide information reasonably sufficient to permit Google to contact you (email address is preferred).

Email: [REDACTED]@[REDACTED].com

4. Provide information, if possible, sufficient to permit Google to notify the owner/administrator of the web page that allegedly contains infringing material (email address is preferred).

Email address on website: [REDACTED]@[REDACTED].net

5. I have a good faith belief that use of the copyrighted materials described above on the allegedly infringing web pages is not authorized by the copyright owner, its agent, or the law.

6. I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

APPENDIX A (Copyrighted work)

<http://www.self-storage-facilities.com/index.htm>

More and more people today are finding it hard to manage the space they rent, own or lease and are turning to self-storage as a solution to cluttered personal and business lives. Whether you're looking to store just a few items, archive your business paperwork or put most of your possessions in a safe place for a few weeks, months or years this could be a cost-effective and flexible solution for you.

So, just what is self-storage? Self storage offers both personal and business users a storage solution that they can basically control themselves. As with more traditional storage methods, self-storage allows you to rent storage space where you can keep goods and belongings in specialist facilities. In the past, we have had to rely upon removal companies and large storage organizations to store on our behalf and have had to play by their rules with limited access, no flexibility, long-term contracts and high charges. With the advent of self-storage, we've been given a lot more choice. It's 'Do It Yourself' storage.

If you're looking to use self-storage the first difference you'll notice is that it's your responsibility to get your stuff to the self-storage facility, pack your goods into the space provided and, ultimately, move it out (although some companies offer fee-based removal and packing services). This allows you to pack your storage space in the way that best suits you so that you can easily access items without having to unload everything in the unit. Most facilities will sell you packing supplies and may even hire removal vehicles to make the whole process quick and simple.

In addition, reputable self-storage operations will have a range of their own security measures in place - these can include CCTV, guards and alarm systems. <This sentence copied and pasted out of sequence>

APPENDIX B (Infringing Material)

http://www.usamovers.net/movers_storage.html

More and more people today are finding it hard to manage the space they rent, own or lease and are turning to Movers Storage as a solution to cluttered personal and business lives. More and more people today are finding it hard to manage the space they rent, own or lease and are turning to Storage as a solution to cluttered personal and business lives. Whether you're looking to store just a few items, archive your business paperwork or put most of your possessions in a safe place for a few weeks, months or years this could be a cost-effective and flexible solution for you. In addition, reputable storage operations will have a range of their own security measures in place - these can include CCTV, guards and alarm systems.

So, just what is storage? Moving Storage offers both personal and business users a storage solution that they can basically control themselves. As with more traditional storage methods, storage allows you to rent storage space where you can keep goods and belongings in specialist facilities. In the past, we have had to rely upon removal companies and large storage organizations to store on our behalf and have had to play by their rules with limited access, no flexibility, long-term contracts and high charges. With the advent of storage, we've been given a lot more choice. It's 'Do It Yourself' storage.

If you're looking to use Moving Storage the first difference you'll notice is that it's your responsibility to get your stuff to the storage facility, pack your goods into the space provided and, ultimately, move it out (although some companies offer fee-based removal and packing services). This allows you to pack your storage space in the way that best suits you so that you can easily access items without having to unload everything in the unit. Most facilities will sell you packing supplies and may even hire removal vehicles to make the whole process quick and simple.
