Subject:

Wrote by Melanie Lowry

"Dear Kelly
I just tried to call you about your complaint with Rosemarie Zizzo. I had no idea you were so upset with me. I dialed the number correctly but the lady that answered didn't want to talk to me, I hope that wasn't you.

It is so hard to get people to understand about FIP, and if you want to talk about it I will explain all that I can, I have really studied this disease in order to try to prevent it ever happening with my babies.

But please do not get involved with this person before you talk to me. She is mentally unstable, CFA knows about her and she has been

banned from ever showing or registering with them. She has been stalking and harrassing me for many months now along with a few other breeders that she doesn't like.

It has been a nightmare and I would like to talk to you about it.

I know your kitty died and I am so sad for him and you, but I did the only thing I could, I offered to replace him. You also have an older cat and that may have been where the kitten contacted the corona virus that can mutate into FIP, even tho I try very hard to raise my kittens not to pick up this virus from their moms this is no guarantee either that it won't happen from here. There is no way to know for sure where your kitten picked it up.

But we have to stop pointing fingers about FIP. There is really no way to prevent it, no way to diagnose it and no way to treat it. I have been told repeatedly, that if you breed cats it is going to show up and I know that it is not going to make you feel any better either.

This person is not official, she has no authority and this is just her own vendetta site. My letter that you read was a response to a posting she did last Fri. She stated that I was in jail and that my cats had been confiscated. She made this up and when she couldn't provide the paper work to back it up she blamed a city official for mixing up my name with that of the person that was arrested last year. She has taken down that page now or rather unlinked it.

As to your reference to the shelter I was helping with, it was the person that eventually did bust but I was the one that was trying to help the cats, I was down there cleaning and bathing and scooping on my own trying to help these cats. The living conditions were horrendous and the only way I could explain it to you was that I was working at a shelter. I didn't know how else to talk about it. All of my friends were so angry at me for getting involved with this person, but I couldn't just let those cats live like that. I was devastated about their living condition.

I also wonder at your reference to my "cat shack". I know that those are Rosemarie's words. I am embarrassed that you thought that of me and my home.

Kelly if you have a problem with me, why don't you take it up with me? I would never have knowingly send out a sick kitten, please know that and I am still willing to replace him, but please discuss this with me

and not her. She cannot resolve this, only you and I can. Thanks Melanie"

I have been quoted here by Kelly Fleming and Rosemarie Zizzo once again has put it on her site without my permission, this is not what I said.

Lollimops Cattery

Escondido, CA 92026

Business Contact: **Melanie Lowry**

What Melanie Lowry's kitten buyer had to say about her.....Hi - "I bought a kitten from Melanie in February 2003. Within in two months Divine Ray of Light (Ray for short) Ray's belly was swollen out. We took him & had him tested for worms. After several vets & a few tests totaling hundreds of dollars we found out Ray had FIP. I e-mailed Melanie throughout this process. She sent e-mails acting like she didn't know what could possibly be wrong with him. When we found out he had FIP she said, "that it must have come from our 18 year old Tabby (totally healthy always) Flash." She told us that "out of sympathy" Ray was to replace my Himmy that had died on Christmas day of Cystitis (he was 13) that she would give me a replacement kitten after Flash had passed on. We paid her \$450.00 for pet quality lilac point Himmy. He was the sweetest little baby, and he cruelly died before our eyes in an agonizing several months. He was healthy only for a month before he started to manifest symptoms. Melanie did not profess to be an expert on FIP when she was dealing with us. She told us, "Why would I give you a replacement kitten if the FIP had come from my cattery." Every vet we have talked to has urged us not to deal with her again. It is a terrible thing to bring little innocent babies into the world to make them suffer. I am sad to tell you all this .." Kelly Fleming 1/18/04

This has link a to [REDACTED] website, on this page she attributes quotes to me that I have not made and some things that were said to her but she has re-written or misquoted them, and this page also contains an official court document that she has re-written, which constitutes fraud. She has inserted my name in a document from a court case that has nothing to do with me, that I was never involved. The second part has quotes of things I supposedly said to this person, they are quoted completely wrong and out of context. She never had permission to quote me either accurately or inaccurately, or to post such on her website. See below,

8/24/03 Synopsis written by
Lt. Mary Gagliardo
Escondido, Ca Animal Control

- The case involved a breeder who severely neglected her cats.
- We were first called to a residence that Mitchell was supposed to be looking after while the owners were out of the country.
- It was an extremely hot day, and there were approximately 20 sick cats and kittens in cages in the garage living in filthy conditions.
- The drinking water for the animals was foul and murky; the litter boxes were overflowing with diarrhea and fecal matter; some had no room in their cage and had to sit right next to the litter box.
- The cats were panting so we took them on exigent circumstances.
- Mitchell retained counsel and they waived their right to an administrative hearing agreeing to comply with certain conditions and restrictions to get the cats back.
- Mitchell relinquished some of the cats to us that day; however we learned she had another residence where she kept over 30 cats. [Melanie Lowry of

Lollimops Cattery was at this residence and saw the conditions of the house and the dieing, sick, neglected & abused cats & did not do one thing to help any of those cats or kittens.

- Melanie Lowry just walked away as if it never happened
- It was located right across the street from Melanie Lowry own residence at 942 Stanley Avenue, Escondido, Ca
- Melanie Lowry was guilty during the fact & after the fact of feline abuse, death, abuse, neglect of her best friend Debra Mitchell cattery of Techno cattery.] [Red written by PCBS.ORG]
- A condition of her original agreement was that she needed to allow Animal Control inside her other residence to inspect the 30 cats.
- She would not, so a Search Warrant was obtained and we went in.
- Her house had no flooring; it was plywood sub-flooring.
- We soon found out that was because all of the cats and kittens in there had severe ringworm.
- Sick cats and kittens were crawling across the floor, diarrhea all over them; cats and kittens close to death with a severe upper respiratory condition; emaciated kittens, kittens with nursing mothers being maintained in small cages similar to the first residence, filthy water with feces and litter in it, so much so that the water was gray and murky; overflowing litter boxes with fecal matter and diarrhea; underweight, pitiful kittens being bred so that their heads were so large, their faces so flat that their nostrils were almost non-existent.
- She was breeding for a feature that made it even harder for these sick cats to get air to their tiny bodies.
- The worst thing we learned about Mitchell as we went along was her ambivalence regarding the animals and their care.
- She fought us throughout the case challenging our findings on the care she was giving (or not giving) to her animals.
- She did not hesitate to sign off all of the kittens for euthanasia; she did not care about their welfare at all.
- Her interest in the animals was strictly revenue, and if she was not going to get them back to sell, she would just as soon nobody get them.
- We had rescue groups lined up to take them and nurse them back to health, but she would not release them and sadly, many died because they were too sick and needed intensive, intensive round the clock care.
- Many of the cats and kittens that had ringworm took three months to completely get rid of.
- It was one of the worst cases of neglect I had seen involving cats.
- Thankfully the judge in the criminal case thought so too (we still have to find him and thank him immensely). As John said, she is currently serving 90 days in jail, which is an appropriate sentence.
- She is now banned from breeding and showing through the CFA (Cat Fancier's Association) with this conviction, and is not even allowed around

a show environment for 7 years.

- The info. about the CFA came from the regional rep who was following the case. The birds stayed with Debra Mitchell

best friend released from custody!

*** Synopsis of Debra Mitchell [Read above]

- Debra Mitchell released from jail!
- What Malanie Lowry who owns the Lollimop cattery did not tell you, the "public" is she is very best friends with Debra Mitchell who owned the cattery named "Techno Cats" in Escondido, Ca., a CFA registered cattery.
 - That was a very sad & horrible story.
 - It goes something like this
- Melanie Lowry is best friends with a person named Debra Mitchell.
 - Melanie Lowry of Lollimop & Reidy Creek Catterys has been friends with Debra Mitchell for many years now.
 - They use to hang out and go into the town of Escondido, Ca in Debra Mitchell's expensive car.
 - Debra Mitchell is well to do, that was told to me by Melanie Lowry herself.
 - Melanaie Lowry also told me, "that her best friend Debra Mitchell is mentally ill, because of how she was treating her cats."
 - Melanie told me how when they went into town one night, it reminded her when they were younger.
 - When the girls use to hang out on the street corners and the boys were there.
 - Melanie Lowry's best friend Debra Mitchell is presently serving a jail sentence of being convicted of animal cruelty, and abuse and neglect against her own cattery.
 - Debra Mitchell had persians, himalayans and I think exotics sh.
 - Melanie Lowry told me when we spoke on the phone many, many times, "how mentally ill her best friend is".
 - Melanie Lowry told me directly, "that she is also guilty of staying QUIET [turned a blind eye] about the abuse,

neglect and cruelty that she knew was going on for a very long time about Debra Mitchell cats and did not do one thing to stop and help those cats".

- I asked Melanie Lowry, "why did you not do anything to help those cats?". She told me, "she did not want to get involved because she was afraid that her best friend Debra Mitchell would call the Animal Control on her".
 - And how could Melanie Lowry live if her cats were taken away.
 - After all Melanie Lowry does make a living off those poor creatures.
 - Melanie Lowry did tell me, "she did take in a few of Debra Mitchell cats because Debra Mitchell actually forced them on her".
 - Then I said to Melanie Lowry, "how can you take care of her neglected cats and also take care of your cats correctly?"
 - She said, "she could not".
 - So then Melanie Lowry told me, "she was gonna give back the kittys Debra Mitchell forced on her because she was not up to this, and she was getting worn out, for caring for her very own kittys".
 - I asked Melanie Lowry why dont you just call up the animal control and tell them about the situation without giving any names? She said, "she could not do this."
 - WHY? Because if Melanie told the authorities about her mentally ill friend, her mentally ill friend Debbie would call the animal control on Melanie. That was what Melanie told me.
-
- Because Melanie has over 30 + cats in a small shack.
 - You see Melanie Lowry runs a kitten mill, she always has to have kittens all the time in order to pay for the rent & monthly living conditions!
 - It was in the newspapers I think the Press Enterprise.
 - They should have arrested Melanie Lowry also because she "KNEW" all along about all the kittys dieing and being neglected and did not do one thing to help those poor kittys at all.
 - Melanie Lowry knew about the abuse before, during and after her best friend Debra Mitchell was even arrested and serving a jail sentence for the feline abuse of her kittys.
 - Melanie Lowry was a first hand witness to all of the neglect, abuse and sickness & death. of all of Debra

Mitchell's cats

- Melanie Lowry of Lollimops himalyans are best friends with Debra Mitchell of Techno cats
- Those kittys were in this neglected condition for a very long time all hushed up by Melanie Lowry of Lollimops himalayans so Melanie Lowry could protect her feline kitten mill empire.
- All those kittys that had to be put to sleep all because Melanie Lowry of Lollimops Cattery in Escondido, California kept her mouth shut for fear the authorities [animal control] would be on your case with all her felines.
- But you know what, her friend did eventually did call the animal control agency on her.
- Because Melanie emailed me telling me, "someone called the animal control on her", and told me, "the animal control did not do anything to me, and I passed their inspection!", And Melanie Lowry said it like she was really proud of passing their inspection.
- That was her mentally ill friend Debbie Mitchell who did that.
- Debbie Mitchell the mentally ill cat breeder was going down the tubes so she wanted to drag Melanie Lowry with her also.
- All this information was told me directly from & by Melanie Lowry of Lollimop Cattery in Escondido, Ca.
- That is how I came upon this horrible story to begin with.
The information
