We are concerned with the owner's misuse of our product image and trademark name. She was, for a short time, a retailer of our products and was dismissed for making false claims about our product, ISO-OPC and ISO-Synergy. She is highly ranked on google and when potential clients go to her site, it states that our products are not approved by

health Canada. The inference is that our products are up to Canadian approval standards. In point of fact, health Canada would never have any oversight of our product since it is classified as a food supplement. Nor would the FDA. She in fact has no reason to be displaying our products at all, because there is no way for her to obtain them.

I have a good faith belief that use of the trademarks described above with the advertisements described above is not authorized by the trademark owner or its agent, nor is such use otherwise permissible under law."

I represent that the information in this notification is true and correct and that I am authorized to act on behalf of the trademark owner, myself.

It is our hope that you can remedy this situation ASAP. All attempts at communicating with the site owner have been ignored. They even refused the registered and certified letter we sent.

Thank you,

[REDACTED]
