Attn: user Support, DMCA complaints

It has come to my attention that the domain www.usafirstloan.com is displaying a mirrored copy of our old site, <http://www.1LoansUSA.com>. Though I have very recently changed the look and feel of my site the content and graphics is mostly the same and they are duplicating it. I have made an effort to contact the owner using Whois database, but the information provided are false. I feel this site has been constructed for no other reason than to harm our organic page rank within the major search engines.

I would like you to remove from your indexes and cache, web site pages which have been copied from my site.

I have a good faith belief that use of the copyrighted materials described above on the allegedly infringing web pages is not authorized by the copyright owner, its agent, or the law.

I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

Thank you
